OBJECTIVE

Experienced tech professional with vast knowledge in **Angular, TypeScript, JavaScript, NodeJS, MongoDB, MySQL**. Looking to obtain the role of Software Developer in an organization, to utilize **03** years of experience in handling popular web languages and technologies in developing and implementing applications based on client's needs.

SKILLS

- Front-End development using **Angular**.
- Experienced with server-side web technology like **NodeJS, Express, Azure functions**.
- Experienced with **MongoDB** which is a cross-platform document-oriented database program. Also have experience with **Mongoose (ODM)**.
- Good working knowledge about **RESTful API** and **JSON**.
- Proficient in coding languages such as **TypeScript, JavaScript, HTML** and **CSS**.
- Experienced with **Microsoft Azure** for building, testing, deploying, and managing applications and services.
- Software version control system using **Git** and **GitHub/Bitbucket**.
- Strong Knowledge about **Data Structure** and **Algorithm**.

EXPERIENCE

Assistant Software Engineer | ERA-InfoTech Limited.

July 2019 - Present

The primary responsibility is design and implementation for web Applications where I design front-end UI with **Angular 10** and **Angular Material**. I plan and build the rest API with **Nodejs** and integrating front-end UI with the built API. I use **MongoDB** as a database.
